

Wipod Music Center

The Bathroom Radio

Waterproof intelligence

Radio

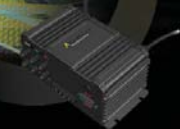

With the WMC55Light, listening to your favorite radio station is easy. With the waterproof Wipod, you'll switch the pre-programmed channels at lightning speed. The LCD screen will provide you with the correct information in an orderly fashion. The (hidden) Receiver-Box is the heart of this set. Connect the included speakers to the box and listen to your favorite radio station, from the comfort of your bathtub.

Radio

Listening to the radio in the bathroom

Enjoy your favorite radio station from the comfort of your own bath room. You can program up to 8 channels. With 1 press of a button, you can switch to one of the channels. This feature is available on all WMC-systems.

Radio

Hours of listening pleasure

The Wipod has a 1500 mAh battery, allowing it to last 8 to 15 hours non-stop without any effort, depending on the source selected (Radio or MP3*). You can charge the Wipod using the included adapter or the included USB cable. This USB cable is also used to transfer the MP3 files from your computer/laptop to the Wipod.

*only with Luxe & Pro.

Fine-tune the audio

In the Audio menu of the Wipod you can fine-tune the audio to perfection. Play with the bass and treble, configure the loudness or select to which speaker set you want to listen....it is up to you.

Order numbers:

WMC55Light : 1x Wipod, 1x Receiver-Box, 2x Bolero speakers

WMC55Light-EB : 1x Wipod, 1x Receiver-Box

Radio & MP3

In addition to an FM radio, the WMC55Luxe also is an MP3 system. Select an MP3 song you previously stored in the Wipod. The song will be streamed wirelessly to the (hidden) Receiver-Box and the connected speakers will do the rest...let the enjoyment begin.

WMC55Luxe

Waterdicht (stand-alone) muzieksysteem voor uw badkamer.

Intuitive menu

The clear screens allow for easy navigation. You'll instantly see where in the menu you are. This makes the Wipod intuitive with ease of use as a principle.

Wireless playback of your digital MP3 music

Transfer your favorite MP3 files to the Wipod to have them within reach in the bathroom at all times. The song you choose will be played wirelessly in the bathroom.

1GB internal memory

This Wipod has 1GB internal memory, translating to enough space for about 250 songs. This gives you enough disk space to allow each user to store his/her favorite music.

Order numbers:
WMC55Luxe : 1x Wipod, 1x Receiver-Box, 2x Bolero speakers
WMC55Luxe-EB : 1x Wipod, 1x Receiver-Box

Radio, MP3, Bluetooth

The WMC75Pro is the flagship from the WMC series. A great extra feature of this model is the option of wirelessly pairing an external Bluetooth device. Take the Wipod with you under the shower and stream the music wirelessly from your Bluetooth device to your water proof Wipod. Of course, your Bluetooth device is located at a safe (moisture-free) location in the house. In addition, this Wipod can also be used as Infra Red (IR) remote control. In other words; a unique control unit that you'll always want to have within reach in the bathroom.

Koppel draadloos uw iPhone of SmartPhone aan dit professionele badkamer audiosysteem.

Wirelessly pairing your iPhone or SmartPhone

Through one simple action, you can pair your SmartPhone, iPhone, iPad or other Bluetooth device with the Wipod. The songs are streamed from your Bluetooth device to the Wipod. This allows you to listen to your complete music library from under the shower at all times.

This function is only available for Pro version.

2GB internal memory

The Wipod Pro has 2GB internal memory, enough to store a music collection of about 500 songs.

Extensive IR features

The Wipod Pro comes equipped with a wide range of IR features, to allow for even better use in the bathroom. It's possible, for instance, to control the AquaSound TVs using the Wipod, but also the lighting system or bubble bath. You name it, and Wipod Pro can control it...provided that they too can be operated using an IR remote.

This function is only available for Pro version.

Order Innummers:

WMC75Pro : 1x Wipod, 1x Receiver-Box, 2x Bolero speakers
WMC75Pro-EB : 1x Wipod, 1x Receiver-Box

Speakers

The Bolero speaker set is the default set that comes with the WMC systems. If you want to get even more out of your AquaSound music system, why not choose one of the models below? This is just a selection from the AquaSound speaker range. At www.aqua-sound.nl you'll find even more speaker models, all suitable for humid areas.
